

80's aesthetic inspire carpet collection

Bold colors, excellent materials, and technical quality characterize the new Colorful Collection by Luxury Carpet Studio.

Designer Elisabetta Santoro has conceived a collection inspired by the fashion of the 1980s and its vibrant hues. The collection draws inspiration not only from the colors but also from the abstract graphics and geometric shapes typical of that period, such as the lightning bolt, the circle and its parts, the triangle, crossed lines, overlapping surfaces, and the shaded effect.

To give the pieces a cultural and almost artistic appearance, the embossing technique has been used, providing three-dimensionality and visual depth.

By combining all these elements, a completely original collection has been created that conveys strong emotions. Whether placed on the floor or installed on the wall, the collection aims to be the protagonist of any living space.

A bold and
colorful design.
