

Sea inspired carpet suggestions

Dive into an all new sea of suggestions.

Collection

The *Calypso* collection contains a series of **nature-inspired designs** and suggestions, with soft and smooth shapes capable of adjusting to the delicacy of the space surrounding them.

Every design refers to nature, and more specifically to the **sea**. The inspirations include sand, waves, foam, water, reflections and depth illusions, as well as organic elements.

The **materiality is a fundamental aspect of the collection**, which doesn't stop to the single level of depth, but just like nature itself uses various layers to create **different tactile perceptions**.

Every design is an inspiration and is **completely customizable** and capable of adapting to any space.
